

Please find below your personal school report detailing your school's Mathletics usage and achievements for the Summer term.

## Curriculum progress and mastery

Students at the school have answered

**20,428**

curriculum questions

Repetition of activities is proven to drive better understanding and results. Achieving >85% on a topic means students attain **Concept Mastery**. Take a look at how your students are progressing:

Results >85%  
**1,705**

Results 84%-50%  
**508**

Results <50%  
**118**

## Points balance

Both curriculum activities and live games offer students the chance to earn points. Here's the breakdown of how your students are scoring:

Curriculum points: **303,460**

Live points: **14,064**

Total points: **317,524**

That's 65% activities completed vs playing live games

## Success and awards

Students achieving more than 1,000 points in a single week receive an award certificate. Certificates are continuous records of achievement which are based on a bronze, silver and gold scale.

That's a total of 150 certificates awarded to your students last term.

## Activities completed

Research concludes that it takes just 3 Mathletics activities (around 20 minutes) per week to improve results.

**2,577**

On average, your students are attempting 1.44 activities per week.

## Get the most out of your subscription

Need support using Mathletics? There's plenty of help at hand.

### Free training:

Attend a webinar to cover the basics, or go further to achieve certification – find out more here: [uk.mathletics.com/webinars](http://uk.mathletics.com/webinars)

### Video library:

We have helpful video guides on everything from assigning homework to personalising learning for your students – just visit [uk.mathletics.com/help](http://uk.mathletics.com/help)

### Extra resources:

There's also plenty of additional resources to use alongside Mathletics in your classroom – visit [uk.mathletics.com/freemathsresources](http://uk.mathletics.com/freemathsresources)
